[DESCRIPTION](#) [RATINGS & REVIEWS](#)

18 months & up. Create a multi-level sensory environment that's just the right size for toddlers to explore. The Up and Down Toddler Loft creates a sizeable gross motor play area within a small footprint. A curved, laminate slide helps toddlers experience gravity and motion while sliding or climbing. Designed with sturdy birch plywood construction and plastic accents in the contemporary color palette, this toddler-sized space provides an open, inviting area for dramatic play and exploration. Soft, yet durable carpet on the steps and platform protects toddlers' hands and knees while crawling and climbing. Impact-resistant, clear acrylic windows offer convenient observation areas for toddlers and adults alike. Finished panels on all sides allow the lofts to be placed in any area of the classroom. Help build confidence in young climbers while they navigate their terrain.

Measures 71"W x 42"H x 71"D

Step Heights are 6" each

Features:

- Birch plywood dramatic play toddler loft
- Features a set of stairs, observation area, and a curved, laminate slide
- Rounded, smooth-sanded child-safe corners and edges
- Soft, yet durable carpet on the steps and platform
- Easy to clean, UV protective finish helps prevent scratches and stains
- Section your space with ease: a finished back panel allows for room arrangement options in the classroom
- Ships ready-to-assemble: all tools, instructions, and hardware included
- Material: 15 mm Birch Plywood, ABS plastic accents, carpet, acrylic and laminate
- 5-year warranty
